

***Petition to  
Her Majesty the Queen  
to protect the law  
against blasphemy***

**M**ay it please Your Majesty. We your humble petitioners are deeply concerned that Your Majesty's Government intend to abolish the law against blasphemy and introduce instead a law against inciting religious hatred. We believe the Name of Jesus Christ should continue to be protected by the blasphemy law. We do not believe that a law against inciting religious hatred is in the interests of good relations between faiths and we believe it would impede the preaching of the Gospel.

Whereas Your Majesty rules this United Kingdom as a Christian monarch in the name of Almighty God, We do humbly request Your Majesty to ask Your Majesty's Government to leave the current law as it stands and if they will not, to withhold Your Royal Assent from any such Bill.
